
EDUCATION

- **University of Luxembourg** Luxembourg City, Luxembourg
Master in Information and Computer Science September 2014 – September 2016
 - Second place overall at Morpheus Cup 2016
 - Best project award in two (Education and Space) categories at Morpheus Cup 2016
 - Best performance in Security challenge (CTF) at Morpheus Cup 2016
 - Fellowship based on Merit from Ministry of Higher Education and Research, Luxembourg in 2016
 - Fellowship based on Merit from Ministry of Higher Education and Research, Luxembourg in 2015
- **North Maharashtra University** Jalgaon, India
Bachelor of Computer Science July 2010 – January 2014

EXPERIENCE

- **Interdisciplinary Center SnT, University of Luxembourg** Luxembourg
Research Associate October 2017 - Present
Contribute towards projects in the topic of blockchain, IoT security and cryptography. Affiliated with SERVAL research group and contribute mainly to bIoTope project (Grant agreement No. 688203). Implementation of different Proof-of-Concept using technologies such as distributed ledgers.
- **itrust consulting** Niederanven, Luxembourg
Security Researcher October 2016 - September 2017
Worked at the R&D department. Contributing to bIoTope (Grant agreement No. 688203) and ATENA (Grant agreement No. H2020-DS-2015-1-Project 700581). Other duties included contributing to 'ISO/IEC 207: Blockchain and electronic distributed ledger technologies' and 'ISO/IEC JTC 1/SC 27'
- **itrust consulting** Niederanven, Luxembourg
Research Intern May 2016 - August 2016
Investigated different 'Authentication and Identity' mechanisms for IoT devices. Study of lightweight security algorithms for the research projects.
- **LACS, University of Luxembourg** Luxembourg City, Luxembourg
Research Assistant January 2017 - April 2017
Implementing and evaluating the security against side-channel attacks on Elliptic Curve Cryptography (ECC) and other for systems on embedded device. Project supervised by Dr. J. Groszsch dl.
- **Interdisciplinary Centre for Security, Reliability and Trust, SnT** Luxembourg City, Luxembourg
Research Assistant May 2016 - August 2016
Worked on the project SATMED, an initiative by SES for emergency health care service with Dr. G. Gheorghe. Analysis and design of a solution to improve confidentiality in a health-care application that deals with patient data and is used by medical staff.

SKILLS

- **Programming Languages** Python, C, Javascript, Rust, Go, Assembly
- **Technologies** Azure, AWS, Docker
- **Project Management** Git, SVN, Mercurial, Scrum, PRINCE2
